INSTRUCTIONS FOR USE**Charging Instructions**

The Bluetooth Headphone comes with a built in rechargeable battery. Before using it for the first time we recommend you to charge the battery fully. It takes 3-4 hours to fully charge the battery. Only use the supplied USB Cord to charge the Bluetooth Headphone. Connect the USB charging cord to a computer USB port and the Micro USB plug to the charging port of the device. The Red LED light turns on while the device is charging. It takes 3-4 hours for the headphones to fully charge. When the battery is fully charged, the LED light will turn to Blue.

Switching on/off the device

Press and hold the ON/OFF button for 4 seconds to turn on/off the device.

3

PAIRING EARPHONES

- 1 Press and hold power button on until blue/red light on headphone is flashing rapidly.
- 2 On your smart device, Scan/search for available Bluetooth devices.
- 3 Select BH7 to pair your earphones to your smart device.
Note: if prompted on your smart device to enter password or pin, it is “0000”.
- 4 When successfully connected, your earphones light will stop flashing and “Connected” will be announced through headphones.

Function Summary**Listening to Music**

Once the Headphone is paired with your device you can stream music wirelessly through the Bluetooth Headphone.

Please Note

- Not all mobile phones support all the functions listed above. Please refer to your cell phone's user's manual for further information.
- Certain functions and indication tone maybe vary depending on your mobile phone.

Voice Assistant Operation

Voice Assistant is a built-in interactive feature that allows you to Start Conversation with Your Siri or Google Assistant, with a click of a button.

This feature enables you to ask questions and seek assistance on a number of things from your Voice Assistant, even when you're several feet away from your phone. Below are some of the many examples listed below.

While the headphone is paired using Bluetooth, press the Voice Assistant button to start conversation with your Siri or Google Assistant. An indication tone would be heard before you speak into the headphone.

- Example 1: Press the Voice Assistant button and then speak into the headphones, how's the weather today?

5

Listening to Music using AUX-In Mode

Insert the 3.5mm auxiliary cable (provided) to the Aux input of the Headphone. And, the other end of the cable connects to the audio device (such as computer / tablet etc.). Select your favorite song at the source device and play.

NOTE: When using 3.5mm AUX Cable, you do not need to turn on the Headphone. All functions will be controlled and used from your device producing the music, not the headphones.

LED indicator

Please refer to the below tables for a list of the LED statuses whilst using the Bluetooth headphone.

Charging Indication

LED indicator	Status of the BT Headphone
Red LED	Charging
Blue LED	Charging Completed

LED Indication

LED indicator	Status of the BT Headphone

6

	<ul style="list-style-type: none">• obstructions• User a different music source• Connect another mobile device
Poor Sound Quality	<ul style="list-style-type: none">• User a different music source• Connect another mobile device• Move your mobile device closer to the headphones and away from any interference or obstructions
Battery Won't Charge	<ul style="list-style-type: none">• Secure the ends of the USB charging cable• Try another charging source
Your Google Assistant not responding	<ul style="list-style-type: none">• This is only available for Android Mobile Devices• Make sure Google Assistant is downloaded on your mobile device and set to default voice assistant• Make sure your Android Mobile Device is Bluetooth paired with Headphone• Make sure you are in a country where Google Assistant is available• For additional support, visit www.support.google.com/assistant
Loud Dial Tone Noise When Activating Google Assistant	<ul style="list-style-type: none">• Make sure you have latest version of Google Assistant App• On your Android mobile device, go to Settings > Apps > Google App > Disable. After that, tap Enable (If you have uninstalled Google App, please uninstall and reinstall the App).

Care and Maintenance

Read the following recommendations before using the Bluetooth Headphone. Following these you will be able to enjoy the product for many years.

- Do not expose the Bluetooth Headphone to liquid, moisture or humidity to avoid the product's internal circuit being affected.
- Don't use abrasive cleaning solvents to clean the device.
- Do not expose the device to extremely high or low temperature as this will shorten the life of electronic devices, destroy the battery or distort certain plastic parts.
- Don't dispose of the device in a fire as it will result in an explosion.
- Don't expose the device to contact with sharp objects as this will cause scratches and damage.
- Don't let the device fall on the floor. The internal circuit might get damaged.
- Don't attempt to disassemble the device as it may get damaged if you are not professional.
