Basic Operation

Power connection

1. Plug in the DC plug provided into the back of the turntable, then the USB into a powered USB Port.

Mode Selection

This Turntable automatically detects the mode you want to use.

- Bluetooth** - Default mode - will turn on automatically and will enter pairing mode.
- Turntable** - When you lift Turntable/RECORD PIN turntable will switch to REC mode.
- USB/SD** - When you plug in a USB or SD card, turntable will switch to the respective mode.

Phono (Record)

Before starting - Please action the following:

- Remove the stylus protector
 - Be sure that the tone arm is being detached from the tone arm rest before operating and resecured again after-use.
1. Place a record on the turntable player.
 2. Lift the RECORD Arm & Pin and the Turntable will automatically switch to RECORD mode.
 3. Set the Arm/Pin onto the RECORD DISC in the proper position depending on the record song to be played.

Note: to stop playing, lift up the Arm/Pin. To continue, place gently back onto the record.

6. When the record has finished, the platter will stop rotating.
7. Make sure to lift ARM/Pin up and place it back into the Arm park (where it sat originally when first opening the turntable).

Basic Operation (Cont.)

Bluetooth

1. When powering on the unit, the turntable will automatically enter Bluetooth pairing mode.
2. Search for **BTR80L** on your smart device BT settings
3. Once connected, you can play any song you desire.
4. Turn the Power Dial to adjust the volume up or down.

USB/SD Card Encoding

Record from TURNTABLE to USB drive or SD Card.

Before starting - Please action the following:

- Insert USB drive or SD card into the Port
1. Making sure a USB disk drive or SD Card is inserted into the USB Port on the turntable, press and hold **MODE/REC** at the front of the turntable for **2 SECS** to start recording. (1 beep sound will indicate it started recording)
 2. Follow the **Phono (RECORD)** on page 8 (previous page) to start playing your record disc.
 3. When you want to stop recording, press and hold **MODE/REC** at the front of your turntable for **2 SECS**. (2 beep sound will indicate it stopped).

USB/SD Card Media Playback

Before starting - Please action the following:

- Insert USB drive or SD card into the Port
1. Making sure a USB disk drive is inserted into the USB Port on the turntable, press and USB/REC at the front of the turntable to start playing Recordings/music files from your USB drive or SD Card.
 2. Use the control at the front of the turntable to navigate recordings/songs.

Note: if you want to clear USB of all media files, Press and hold **MODE/DEL** to format USB drive or SD Card. **DO NOT PRESS if you do not want everything removed on storage device.**

Basic Operation (Cont.)

AUX IN

Before starting - Please action the following:

- To use this mode, please have a 3.5mm AUX cable, this is so you can play music from your device through the Turntable speakers.
- Turntable will automatically change modes once AUX is plugged in.

1. Insert AUX IN cable in the back of the turntable, into your device you wish to play music from.

HEADPHONE

Before starting - Please action the following:

- To use this mode, plug in your headphones via the headphone jack inside the turntable below the power/volume dial.
- Turntable will automatically change modes once Headphone jack is plugged in.
